About me

I am a proactive and dedicated person with a passion for web development. In 2023, I completed the accredited 'Frontend Web Development' course at IT School, equipping me with the necessary skills to build responsive and user-friendly websites. Subsequently, I started my career as a Frontend Developer, and then I transitioned into a Fullstack Developer role at Radacini Group. My objective is to continuously enhance my skills and create innovative web solutions. With a strong work ethic, attention to detail, and fervor for web development, I am confident in my ability to positively contribute to any team and assist in achieving our shared objectives. I am constantly learning and exploring new technologies to enhance my knowledge and stay up-to-date with the latest industry trends.

[Short interview from "IT School" about my progress during the course and the job](#)
